CASSIDA GREASE HDS Series

Product Information
Synthetic heavy-duty greases for food and beverage processing equipment

**CASSIDA GREASE HDS 00** and **2** are very high performance heavy-duty lubricants specially developed for the grease lubrication of machinery in the food and beverage processing and packaging industry.

They are based on an aluminium complex thickener, synthetic fluids and selected additives chosen for their ability to meet the stringent requirements of the food and beverage industry.

Certified by NSF for ISO 21469 and registered by NSF (Class H1) for use where there is potential for incidental food contact. Produced according to FLT Quality Standards, in facilities where HACCP audit and Good Manufacturing Practice have been implemented and form part of the quality and hygiene management systems ISO 9001 and ISO 21469.

**CERTIFICATIONS AND SPECIFICATIONS**
- NSF H1
- NSF ISO 21469
- Kosher
- Halal
APPLICATIONS

CASSIDA GREASE HDS 00
- Enclosed industrial gearboxes
- Open gears
- Central grease lubrication systems

CASSIDA GREASE HDS 2
- Slow and medium speed plain and rolling element bearings
- Heavy loaded and shock loaded applications
- Joints, linkages and slides
- Overhead track systems

CASSIDA GREASES HDS may also be used as protective anti-rust films and as release agents on gaskets and seals of tank closures.

PERFORMANCE FEATURES

- Noted for their long life
- Excellent wash out resistance to hot and cold water
- Excellent oxidation and mechanical stability
- Excellent corrosion prevention characteristics
- Excellent adhesive or tackiness properties
- Neutral odour and taste

OPERATING TEMPERATURES

HDS 00: -35 °C to +100 °C (peak up to +120 °C)
HDS 2: -30 °C to +120 °C (peak up to +140 °C)

SEAL AND PAINT COMPATIBILITY

Compatible with the elastomers, gaskets, seals and paints normally used in food machinery lubrication systems.

HANDLING AND STORAGE

All food grade lubricants should be stored separately from other lubricants, chemical substances and foodstuffs and out of direct sunlight or other heat sources. Store between 0 °C and +40 °C. Provided that the product has been stored under these conditions we recommend that the product be used within 3 years from the date of manufacture. Upon opening a pack, the product must be used within 2 years (or within 3 years of date of manufacture, whichever is the sooner).
